

Santa Cruz Children's School Remembers

So often, exploration of the cultural practices of others reveals not how different we are from our neighbors, but how similar. The students of Santa Cruz Children's School, under the guidance of Ana Paula Teeple and Nicole Bargagliotti, explored the theme of remembrance together through the building of this ofrenda. In each beautiful piece of this alter lies a story of loss and a reminder of just how connected we all are.
